

Syrian Refugee Song

Chorus

Dm
Come and help us
Am
Come and help us
Dm A
Come and help us escape from Syria

Verse 1

Dm
Mustard gas is burning us
A/C#
Suffocating, killing us
Am/C Dm/B Dm/Bb A
Who will help us in this war-torn land?
Dm
Overcrowded flimsy craft
A/C#
Fear of drowning prevalent
Am/C Dm/B Dm/Bb A
Who will give us all a helping hand?

Verse 2

Some will reach the furthest shores
But their neighbours close their doors
We can't let you live here in our land
Food and drink in short supply
Tired and weary, children die
Corpses lying dead upon the sand

Verse 3

Can we help these needy folk?
They need aid and not just talk
Let us open up our homes to them
Welcome in the refugees
Give safe haven for their needs
We can comfort and support them then
